

# What Gave Me Away

Trisha Yearwood

Was it the way you caught me staring  
Or the dress that I was wearing that told you so  
Was it the way that I was stumbling my words  
When I was trying to speak  
Did you know I was in trouble  
When I ordered up a double  
And I barely even drank  
Was it written on my face  
What gave me away

Was it the way I hung around  
While the band was breaking down  
It was three A.M.  
Or when we finally left the bar  
When you walked me to my car  
Did you know  
When we stood there in the silence  
And the parking lot was quiet  
Was my cover blown  
How long did it take  
What gave me away

Did you see it when it hit me  
Feel it when you kissed me  
All night long  
Was it when you took me home  
And I woke up in the morning  
With your t-shirt on  
Baby, did you know all along

I was sweating, I was shaking  
Every breath that I was taking  
Every time we met  
Was it obvious that I was blind  
To everybody else in the room  
Could you tell my heart was racing  
I was falling, It was aching  
Couldn't keep my cool  
Tell me what did I say  
What gave me away

Did you see it when it hit me  
Feel it when you kissed me  
All night long  
Was it when you took me home  
And I woke up in the morning  
With your t-shirt on  
Baby, did you know all along

Did I ever have you guessing  
Did you know it from the second  
I walked in the room  
Was it written on my face  
What gave me away
