If I know me  
I'm not looking for something serious  
If I know me  
Probably gonna get a little bit too curious  
Call my name when the morning fades  
Yeah, we'd just be getting started if I had my way  
If I know you  
You're probably down for that too, now

You're a little hungover and so am I  
I know it sounds strange but  
Kinda like this feeling, I ain't gonna lie  
When you lying next to me  
Hands in my hair, we got no time to spare  
My friends say you're trouble but I'm on your level  
Okay, same same, yeah I'm on your level (your level)
