

Back To My Love

Tritonal

All the lights go out, the colors have faded
Every breath I take I'm reminded of you
So much time goes by but it's like nothing changes
Are you lonely tonight
I wish I knew

Because you're in my heart
You're in my head
You're in the silent space between
Right from the start
Until the end
I know you'll come back

Searching for the words I'm turning the pages
Every step I take I see more of the truth
So much time goes by but it's like nothing changes
Are you lonely tonight
I wish I knew

Because you're in my heart
You're in my head
You're in the silent space between
Right from the start
Until the end
And it's oh so clear to me that you'll come back

Back to my love
Back to my love again
Back to my love
Back to my love again
Back to my love
Back to my love
I know that you'll come back

Back to my love
Back to my love again
Back to my love
Back to my love again
Back to my love
Back to my love
I know that you'll come back

I know that you'll come back
I know that you'll come back
