

# Calabasas

Tritonal

Used to drive up Topanga  
Real late at night  
It's hard breaking the habit of stopping by  
Wanna dial up your number  
One more time  
Just to see how your day was  
And say goodnight

'Cause I keep thinking about you  
Every hour  
Everyday  
And I've been living without you  
Wish I could call  
And take the blame  
Yeah keep missing about you  
Everything in every way  
I know I thought it through  
But I hated leaving you

I never go back to Calabasas  
I never go back  
I never go back  
I loved it every minute that it lasted  
You're never coming back  
You're never coming back  
I never go back to Calabasas  
Calabasas  
Calabasas

Wish I had a good reason  
To let you go  
Wish I could give up the pieces  
I'm holding on  
But oh, I don't  
And I know I won't

'Cause I keep thinking about you  
Every hour  
Everyday  
And I've been living without you  
Wish I could call  
And take the blame  
Yeah keep missing about you  
Everything in every way  
I know I thought it through  
But I hated leaving you

I never go back to Calabasas  
I never go back  
I never go back  
I loved it every minute that it lasted  
You're never coming back  
You're never coming back  
I never go back to Calabasas  
Calabasas  
Calabasas  
I loved you every minute that I had you

That I had you  
That I had you

Every minute that I had you  
Had you  
You're never coming back  
I never go back to Calabasas  
Calabasas  
Calabasas  
I loved you every minute that I had you  
That I had you  
That I had you
