

Colors

Tritonal

Saw them dancing in your eyes
Like shadows in the night
Doing pirouettes around the stars
We were running in a haze
I remember every shade
Hit my veins and they shot up sparks

Words fell from your lips
And all I heard was white noise in the dark
But when you looked away
I remember every shade

So let your colors run tonight
We're painting in the dark
Let your colors run tonight
The colors of your heart
Let your colors run tonight
We're painting in the dark
Let your colors run tonight
The colors of your heart

Saw them dancing in your eyes
Like shadows in the night
Doing pirouettes around the stars
We were running in a haze
I remember every shade
Hit my veins and they shot up sparks

Words fell from your lips
And all I heard was white noise in the dark
But when you looked away
I remember every shade

So let your colors run tonight
We're painting in the dark
Let your colors run tonight
The colors of your heart
Let your colors run tonight
We're painting in the dark
Let your colors run tonight
The colors of your heart

The colors of your heart
