

Easy

Tritonal

Oh, I know it's a lot
We moved fast, it got serious
I don't know if you want this to last
But I'm curious

Tell me how it's gonna go down?
Got a feeling (I got a feeling)
Baby, you don't gotta freak out
You can need me (I got a feeling)
Let me in on all of your doubts
What you thinking? What you thinking?

Let's take it easy, easy
'Cause that's all that it needs to be
I'll make it easy, easy
Oh, that's all that it needs to be
It should be easy
It should be easy
It should be easy

Oh, I don't understand what went wrong
'Cause it's clear enough
That you're so in your head
Don't you know there's no fear in love?

Tell me how it's gonna go down?
Got a feeling (I got a feeling)
Baby, you don't gotta freak out
You can need me (You can need me)
Let me in on all of your doubts
What you thinking? What you thinking?

Let's take it easy, easy
'Cause that's all that it needs to be
I'll make it easy, easy
Oh, that's all that it needs to be
(It's all it needs to be)
It should be easy
It should be easy

You know complicated's so overrated
Oh no, let's bend before we break it
You gotta believe me, it should be easy
Oh no, let's bend before we break it
It should be easy
It should be easy

It should be easy
It should be easy
It should be easy
It should be easy
