

Electric Glow

Tritonal

We are running like animals waiting to spark
But I see your reflection colour the dark
Now I'm pushing through oceans
I'll find a way
To the beautiful trace I was imagining
I feel your electric glow
I feel your electric glow
Takes me to a place I don't know
Your electric

Your electric glow
I feel your
I feel your electric glow, glow, glow
Electric glow, glow, glow
Electric glow, glow, glow
Electric glow
Come alive in the moment we collide
Come alive in the moment we collide
I feel your electric glow
I feel your electric glow
Takes me to a place I don't know
Your electric

Your electric glow
I feel your electric glow, glow, glow
Electric glow, glow, glow
Electric glow, glow, glow
Electric glow
I feel your electric glow, glow, glow
Electric glow, glow, glow
Electric glow, glow, glow
Electric glow
Your electric
Your electric glow
