

Forever In Peace

Tritonal

It's time to return to the love (To return to the love)
That you are
To embrace the totality of the beautiful human being that is yo
u
To allow all of the lies to fall away
And to allow the truth
Of the infinite possibility and power that you are to emerge
You are the source (You are the source)
Of everything
You are the source of your love
You are the source of your light
Rest forever in peace
Abide in your brain
Abide in your truth
And liberate everyone that you meet
With your empathy, compassion, and love
When our journey ends
Your life begins
Know this truth
And light up the world
