

Long Way Home

Tritonal

Spinning in the sky we all need something to believe in, hmm
Never knowing why, we're always searching for a reason, hmm

Why some things break us
And some things don't
Like a photograph
Hold this moment
Cause the future won't let us go
Cause I know we've

Got a long way home
We'll lean on each other
I'm not on my own
As long as I go with you, oh
As long as I go with you, oh
As long as I go with you

As long as I go with you

Somewhere up above the clouds I know the sun is rising, oh
And somewhere in the world there is a place we aren't divided,
oh

Where nothing breaks us
And we're not alone
Like a photograph
Hold this moment
Cause the future won't let us go
Cause I know we've

Got a long way home
We'll lean on each other
I'm not on my own
As long as I go with you
As long as I go with you
As long as I go with you, oh
As long as I go with you, oh
With you, oh

As long as I go with you
