

Love U Right

Tritonal

Fed up
Tell me you're fed up, I can help you
Help you to see that it gets better
I wanna hear you say you're fed up

So I can show you what you really want
Get your hands on something real for once
Take you where you've never gone
Somewhere that you can feel for once

Oh, let me be the one to love you right
You right
If you think I'm crazy, yeah, you're right
You're right
Let me get in your head to open your mind
If you give me a chance I'll show what's in mine
Oh baby, let me be the one to love you right
You right
If you give me a chance

Let me love you, love you, let me love you right
Let me love you, love you, let me love you right
Let me love you, love you, let me love you right
Let me love you, love you, let me love you

Patience
You don't got patience for that fake shit
Well babe I'm right here, I'm just waiting
To hear you say you don't got patience

So I can show you what you really want
Get your hands on something real for once
Take you where you've never gone
Somewhere that you can feel for once

Oh, let me be the one to love you right
You right
If you think I'm crazy, yeah, you're right
You're right
Let me get in your head to open your mind
If you give me a chance I'll show what's in mine
Oh baby, let me be the one to love you right
You right
If you give me a chance

Let me love you, love you, let me love you right
Let me love you, love you, let me love you right
Let me love you, love you, let me love you right
Let me love you, love you, let me love you right

Let me love you, love you, let me love you right
Let me love you, love you, let me love you right
Let me love you, love you, let me love you right
Let me love you, love you, let me love you

Oh baby, let me be the one to love you right
You right

If you give me a chance

Let me love you, love you, let me love you right
Let me love you, love you, let me love you right
Let me love you, love you, let me love you right
Let me love you, love you, let me love you right

Let me love you, love you, let me love you right
Let me love you, love you, let me love you right
Let me love you, love you, let me love you right
Let me love you, love you, let me love you
