

# Out My Mind

Tritonal

Loving you can get so lonely  
Hard to get is just my type  
If you want me come and show me  
You're in my heart, I'm out my mind

I know the games that you play  
Tryna act like you don't want me  
But how come the second I leave you alone  
You pick up your phone and call me?  
We got that crazy connection  
Don't mess with the laws of attraction  
When you're in my heart, I'm out my mind

When it's good it feels so good  
And even when it's bad it's still pretty amazing  
It's pretty amazing  
I know I should leave you for good  
But I'm keeping you around  
I guess I'm going crazy  
I guess I'm going crazy

Loving you can get so lonely (lonely)  
Hard to get is just my type (oh-oh-oh)  
If you want me, come and show me  
When you're in my heart, I'm out my mind  
You're in my heart, I'm out my mind

When you're in my heart, I'm out my mind  
When you're in my heart, I'm out my mind

Baby, you love the attention  
You want the control and you know it  
Having the upper hand doesn't mean nothing  
If you ain't got no one to hold it  
I don't know what you've been smoking?  
Don't mess with the laws of attraction  
When you're in my heart, I'm out my mind

When it's good it feels so good  
And even when it's bad it's still pretty amazing  
It's pretty amazing  
I know I should leave you for good  
But I'm keeping you around  
I guess I'm going crazy  
I guess I'm going crazy

Loving you can get so lonely (lonely)  
Hard to get is just my type (oh-oh-oh)  
If you want me, come and show me  
When you're in my heart, I'm out my mind  
When you're in my heart, I'm out my mind

When you're in my heart, I'm out my mind  
When you're in my heart, I'm out my mind

I'm out my mind, yeah  
I'm out my mind

When you're in my heart, I'm out my mind  
When you're in my heart, I'm out my mind  
When you're in my heart, I'm out my mind  
When you're in my heart, I'm out my mind
