

## Satellite

Tritonal

When your world's colliding  
Crashing from the sky  
I'll be your satelllite  
To guide you home  
No, you are not alone  
Though it's right  
There is no hope inside  
I'll be your satelllite to let you know  
You are not alone...

When your world's colliding  
Crashing from the sky  
I'll be your satelllite  
To guide you home  
No, you are not alone  
Though it's right  
There is no hope inside  
I'll be your satelllite to let you know  
You are not alone...
