

## Set It On Fire

Tritonal

There's she kind of lost  
In the white wash  
Did the city lights blind you, blind you?  
The king may have his horses  
The king may have his knights  
But only we can put our hearts back together, together  
Where are we gonna go?  
Anywhere we want to!

Tonight, the world is coming down  
Oh, we gonna set it on fire  
Oh, we gonna set it on fire  
Tonight, the world is coming down  
Oh, we're gonna set it on fire  
Oh, we're gonna set it on fire

Now, that I'm older  
See, I've got a plan  
The seasons, summer's bolder  
Then I long her,  
Then I long her  
Don't, I believe it  
'Cause we got a heart  
That we, don't even, understand  
I left your name at the door  
I'll see you back at the show

Tonight, the world is coming down  
Oh, we're gonna set it on fire  
Oh, we're gonna set it on fire  
Tonight, the world is coming down  
Oh, we're gonna set it on fire  
Oh, we're gonna set it on fire
