

Something New

Tritonal

Ad I found something new
And I just can't walk away
I just can't walk away
There's something close to me
Just the way that it has to be
The way that it has to be
It's like a brand new start
But I'm feeling like it's falling apart
I'm feeling like it's falling apart
There's no one to blame
I'm writing out this song in the rain
I didn't want to give it a name [x2]
I found something new
I just can't walk away [x6]
I found something new
And I just can't walk away
I just can't walk away
There's something close to me
Just the way that it has to be
The way that it has to be
It's like a brand new start
But I'm feeling like it's falling apart
I'm feeling like it's falling apart
There's no one to blame
I'm writing out this song in the rain
I didn't want to give it a name [x2]
I found something new
And I just can't walk away
I just can't walk away
There's something close to me
Just the way that it has to be
The way that it has to be
