

## Sometimes I Wish

Tritonal

Only you took me there,  
to the place where I live still,  
no one else could see me whole,  
but this thing you've built with care has been sold,

me for you,  
I was well,  
now I'm weak but I need to break this spell,  
time is not on my side,  
it stands still, it lingers, it just hides,  
oh I'm dying and I'm done,  
nothing here,  
I am done,

sometimes I wish I never met you,  
sometimes I wish I never met you,  
sometimes I wish I never met you (oh oh oh),

out of my heart still,  
out of my mind still,  
I wanna have some peace,  
out of my heart still,  
out of my mind still,  
I wanna have some peace,  
out of my heart still,  
out of my mind still,  
I wanna have some peace,  
out of my heart still,  
out of my mind still,  
I wanna have some peace,
