

Untouchable

Tritonal

We've been wondering in the dark
A million miles apart going nowhere
Believe that even if we're lost
You know it won't be long 'til we get there
Spinning 'round no control
Burning down, letting go
We've been wondering in the dark
But no matter where we are, just remember

We rise and we fall
We'll stay, we'll stay **untouchable**
Yeah, after it all
We'll stay, we'll stay **untouchable**

Time is slipping through our hands
We're sinking in the sands of forever
Light, surrender to the dark
But we can make a spark here together
Hanging on by a thread
We will climb back again
Time is slipping through our hands
It's hard to understand, but remember
