

# Insurrection

Trivium

Bow not before his creation  
These mortals: "man"  
This act of insult  
Breeds our discontent  
He turned his back  
On our loyalty  
I will bring my insurrection  
And a war upon heaven

I will bring my insurrection  
And a war upon heaven  
Hell-fire be my destruction  
For this war upon heaven

Forged from fire  
I declare this war  
A war against Heaven  
I bring upon my scourge  
Filled with hubris  
A declaration of war

It is I who spawns this fury  
Torches: ignite  
Blaze is set to engulf all of which we hate  
Storm in, eviscerate  
Every motherfucker in our way  
I will bring my insurrection  
And a war upon heaven

I will bring my insurrection  
And a war upon heaven  
Hell-fire be my destruction  
For this war upon heaven

Forged from fire  
I declare this war  
A war against Heaven  
I bring upon my scourge  
Filled with hubris  
A declaration of war

Ascend to the heavens  
To destroy them all

Forged from fire  
I declare this war  
A war against Heaven  
I bring upon my scourge  
Filled with hubris  
A declaration of war
