

# Struck Dead

Trivium

Pain is easier to remember  
Struck dead  
Struck dead from within  
Struck fucking dead  
Pain is easier to remember

I must descend again  
I fanned the flames and now they're fed  
I need to fall from grace  
And suffer like I do  
This calming blackness creeps below  
It pulls me down and won't let go  
Why must I fall again  
And suffer like I do?

Pain is easier to remember  
Struck dead  
Struck dead from within  
Struck fucking dead  
Pain is easier to remember

I must descend again  
I fanned the flames and now they're fed  
I need to fall from grace  
And suffer like I do  
This calming blackness creeps below  
It pulls me down and won't let go  
Why must I fall again  
And suffer like I do?

Pain is easier to remember

The wings I've grown have atrophied  
The vultures have picked my bones clean  
This hungry pack of anxieties  
Salivates and chews

Back into the nothingness  
Swallowed by my fears  
Fuck

Back into the nothingness  
Swallowed by my fears

Back into the nothingness  
Swallowed by my fears

I must descend again  
I fanned the flames and now they're fed  
I need to fall from grace  
And suffer like I do  
Suffer like I do  
Suffer like I do  
I need to fall from grace  
And suffer like I do

This calming blackness creeps below

It pulls me down and won't let go  
Why must I fall again  
And suffer like I do?  
Suffer like I do  
Suffer like I do  
Why must I fall again  
And suffer like I do?

Pain is easier to remember  
Struck dead  
Struck dead from within  
Struck fucking dead  
Struck dead, struck dead  
Struck fucking dead
