

Heavy Crown

Trixie Mattel

Heavy head in a heavy crown
Had a few since you came to town
Where are you gonna keep them, still?
Winning's losing with a couple strings
It's a choosing between two things
It's a two-piece suit or all the frills

Did you ever think?
That if you got everything
All the records, they don't play the same
Did you have to grow?
Gotta be the last to know
And all the records, they don't play the same
But they've changed

Every day is a warning sound
When you're listening to the ground
You can hear 'em coming miles away
Hit the road and you turn those wheels
You're alone so you learn to steal
It's a long way home and so you stay

Did you ever think?
That if you got everything
All the records, they don't play the same
Did you have to grow?
Gotta be the last to know
And all the records, they don't play the same
But they've changed
