

# Yellow Cloud

Trixie Mattel

I can see us in a small town  
You count the stars up in the sky  
Never thought that they could fall down  
Onto your suit or on the tie

Across the table at a French place  
I lose my way into the wine  
With your glasses on your pretty face  
We can go up, baby we can float up

Say we'll never come back down  
To the place in the yellow cloud  
Yours forever, thumbtack down  
Ooh... ooh...

Say you'll never come back down  
To the place in the yellow cloud

Doo doo doo  
Doo doo doo  
Doo doo  
Doo doo doo  
Doo doo doo  
Doo doo doo  
Doo

Days are runnin' at a slow pace  
And all the glitter in between  
And all the fallout from the won race  
I'm Miss American Teen

I can see the picket fences  
I can see you mow the lawn  
Got no fear and no pretenses  
We got nothin' but our sunglasses on

Say we'll never come back down  
To the place in the yellow cloud  
Yours forever, thumbtack down  
Ooh... ooh...

Say you'll never come back down  
To the place in the yellow cloud

When we're older, we stay the same  
Couple losers who won the game  
And it gets colder, but it never ends

Say we'll never come back down  
To the place in the yellow cloud  
Yours forever, thumbtack down  
Ooh... ooh...

Say you'll never come back down  
To the place in the yellow cloud
