

Professor Otto

Trollfest

Outside a cave entrance, Professor Otto is standing together with five other Trolls. The Professor has been commanded by Karve (chief executive of daily operations at K.A.O.S. Corp) to lead the group on a mission deep into the earth and fetch him an army. His first decision is to let the Sisters of Spelunking lead him, Jegermeister, ShetlandsPaul and IslandsHans on the way.

The Sisters of Spelunking leads them way into the cave.
Deeper and deeper they venture, far beneath our feet.
The pitch dark and warmth almost suffocates.
But onwards they go without question, the mission must succeed.
