

Could've Been Me

Trooper

I was thinkin' all night
Before I started to write
Congratulations
Hope it works out alright

Maybe I could come to see you
Catch a Greyhound, only take a day or two
It ain't no big production
Hey, we've been friends forever
It's the least that I can do

Could've been me
Standin' by your side
Me and you together now
If I'd have only tried
I will be
Brokenhearted
What will be, will be
For you and me

Still got that picture in my wallet
Still have the last letter, that I got from you
Remember when you asked me
Do I still really love you
It's too late but, yes I do

Could've been me
Standin' by your side
Me and you together now
If I'd have only tried
I will be
Brokenhearted
What will be, will be

Could've been me
Standin' by your side
Me and you, me and you
If I'd have only tried
I will be
Brokenhearted
What will be, will be
For you and me
