

Oh Pretty Lady

Trooper

Pretty lady
Here I am
With my heart on my sleeve
Hat in my hand

You said you could help me
Help me now
Change my life
Please show me how

A face of clay
And yet so warm
I feel like I've weathered
Eternal storm

You said you could help me
Help me now
Change my life
Please show me how

Pretty lady...
Pretty lady
Here I am
With my heart on my sleeve
Hat in hand

You said you could help me
Help me now
Change my life
Please show me how
Pretty lady
