

Ready For The Nite

Trooper

Listen to me
Hey, listen to me very carefully
We don't have to be
Anything we don't wanna be
Just say the word, and we'll be free

Just relax
And head out on the highway
There ain't nothin' to worry about at all
Where anything we do is gonna be alright
We're ready for the nite
Ready for the nite

You are very popular
You could be anything you wanna be
I'm not goin' for the jugular
Just want you to spend a little time with me
Come on and spend a little time with me

Just relax
And head out on the highway
There ain't nothin' to worry about at all
Where anything we do is gonna be alright
We're ready for the nite
Ready for the nite

Just relax
Hey, it's gonna be easy
There ain't nothin' to worry about at all
Where anything we do is gonna be alright
We're ready for the nite
Ready for the nite

Come on
