

What the Hell's Goin' On?

Trooper

Telephone operator sounded like you
When I tried to call you on the phone
Everywhere I turn there's another little clue
Convinces me I'm not alone

How come every woman looks just like you
Before they turn and walk away
Tell me, what the hell's a guy supposed to do
When he's feelin' this way
It happens everyday

What the hell's goin' on (What the hell's goin' on)
Heaven above
What the hell's goin' on (What the hell's goin' on)
Am I fallin' in love

Girl in the elevator looked like you
I couldn't look away
There we were alone
What was I supposed to do
What was I supposed to say

I'm gettin' sick and tired of always findin' you in places
Where you're not supposed to be
Who the hell told you it would be alright
To get inside of me

What the hell's goin' on (What the hell's goin' on)
Push is comin' to shove
What the hell's goin' on (What the hell's goin' on)
Am I fallin' in love

Oh no, uh huh
What the hell's goin' on
Oh no, uh huh
What the hell's goin' on

Telephone operator sounded like you
When I tried to call you on the phone
Everywhere I turn there's another little clue
Convinces me I'm not alone

What the hell's goin' on
