Bittersweet

Trophy Eyes

Where do you go?
When we're together I don't feel you
Like I used to
After everything we've been through
Keepsakes, pet names
Tattooed on my brain
You won't say so
But you can't tell me that it's not true

What we want not what we need
I'm falling but it's bittersweet
You're happy but it's not with me
Yeah

What we want not what we need
I'm falling but it's bittersweet
You're happy but it's not with me
Yeah

Do you love him
Or do you just need something different?
That I can't give
I know I'm broken but I'll fix it
Sinking feeling
When you smile I see him
I won't mention
If we pretend this never happened

What we want not what we need
I'm falling but it's bittersweet
You're happy but it's not with me
Yeah

What we want not what we need
I'm falling but it's bittersweet
You're happy but it's not with me
Yeah

And I don't blame you
'Cause I hate me too
I always knew
You'd moved on before we were through

What we want not what we need
I'm falling but it's bittersweet
You're happy but it's not with me
Yeah

What we want not what we need
I'm falling but it's bittersweet
You're happy but it's not with me
Yeah
