

## Figure Eight

Trophy Eyes

There's a place here, I can feel it  
Even if you can't see right now  
You gotta breathe deep and believe it  
I know I can fly, I just don't know how

Can you feel it inside?  
Anything can change in the light  
They're singing just for you tonight  
'Cause baby you're the star in my eyes

Say it like you mean it  
Do you trust me now?  
Call it like you see it  
Are we burning out?  
I wish you could feel it like I do  
Everything I've done, I do it all for you  
Say it like you mean it  
Do you trust me now?

You're my figure eight, yeah my best friend  
Can't we spend the night like we used to outside your head  
And it's moving to the beat now  
But it cost you everything you had inside this empty house

I loved you once before but that was then  
And now you're like a stranger in my bed  
We know that our love is at an end  
But you act like you don't see and I pretend

Can you feel it inside?  
Anything can change in the light  
They're singing just for you tonight  
'Cause baby you're the star in my eyes

Can you feel it inside?  
Anything can change in the light  
They're singing just for you tonight  
'Cause baby you're the star in my eyes

Say it like you mean it  
Do you trust me now?  
Call it like you see it  
Are we burning out?  
I wish you could feel it like I do  
Everything I've done, I do it all for you  
Say it like you mean it  
Do you trust me now?

Say it...  
Oh yeah  
Yeah  
Yeah

Say it like you mean it  
Do you trust me now?  
Call it like you see it  
Are we burning out?

I wish you could feel it like I do  
Everything I've done, I do it all for you  
Say it like you mean it  
Do you trust me now?

Can you feel it inside?  
Anything can change in the light  
They're singing just for you tonight  
'Cause baby you're the star in my eyes
