

On my way  
Start on the bottom like they say  
And I'm starting to see changes in me  
Could be someone that deserves you one day  
One day

On my way  
Careful what you wish for  
'Cause you might find me there

All that you want for me is quiet inside  
All I can offer you is some piece of mind  
I'm gonna make it there, I'll be alright  
Everything turned out just fine, but I still wanna die

On my way  
Empty apologies leave stains  
That broken promises don't clean  
I'm always the reason you're in pain  
Runaway

Careful what you wish for  
'Cause you might find me there

All that you want for me is quiet inside  
All I can offer you is some piece of mind  
I'm gonna make it there, I'll be alright  
Everything turned out just fine, but I still wanna die

On my way  
Make the change  
To see what you see in me

On my way  
Break the chain  
On my way  
To see what you see in me

All that you want for me is quiet inside  
All I can offer you is some piece of mind  
I'm gonna make it there, I'll be alright  
Everything turned out just fine, but I still wanna die

Keep me together  
I'm doing better  
Keep me together  
I'm doing better now

I'm gonna make it there, I'll be alright  
Everything turned out just fine, but I still wanna die

On my way  
Break the chain  
To see what you see in me  
On my way  
Make the change  
On my way

To see what you see in me
