

# Silver

## Trophy Eyes

Did you feel like heaven?  
Did you ring like silver in the wasted light?  
Still I'm trying to find  
Did you sing through the battle call?  
Did you ring like silver in the wasted light?  
Still I'm trying to find  
Saw it beneath your eyes

It's funny that I think of you right now  
Knowing all the years that turned to clouds  
I'm still coming down  
And you know it ain't that way  
Feeling all the things I couldn't say  
I'm still coming down  
You're still coming 'round, yeah

Did you feel like heaven?  
Did you ring like silver in my wasting light?  
Still I'm trying to find  
Did you sing through the battle call?  
Did you ring like silver in my wasting light?  
Still I'm trying to find  
Saw it beneath your eyes

It's funny that I think of you right now  
Knowing all the years that turned to clouds  
I'm still coming down  
And you know it ain't that way  
Feeling all the things I couldn't say  
I'm still coming down  
You're still coming 'round, yeah

How do I redefine all my love for you?  
I guess I look to the sun with you  
Look to the sun with you, yeah  
I'm still coming down  
You're still coming 'round, yeah

It's funny that I think of you right now  
Knowing all the years that turned to clouds  
I'm still coming down  
You're still locked in all these walls  
I'm way too tired to want it all  
I'm still coming down  
You're still coming 'round

How do I redefine all my love for you?  
I guess I look to the sun with you  
Look to the sun with you  
How do I realize all my love for you?  
I guess I look to the sun with you  
Look to the sun with you  
With you
