

Settle down  
I'm not around  
It's hard

Burning ground  
It's all around  
My heart

But I take what I get and I slow it down so it lasts  
I feel when I kneel to the power of my past

Don't take this to heart  
Don't take this to  
Heart

I smoke until I cave in  
Hard luck  
I'm choking when I take it  
Spit blood  
I swear I'll never make it  
On God  
Cos maybe I'm done waiting

But I take what I get and I slow it down so it lasts  
I feel when I kneel to the power of my past

Don't take this to heart  
Don't take this to  
Heart

Cos I lost what I once loved in you  
I'm talking to myself cos you don't wanna  
So don't take this to heart

Don't take this to heart

But I take what I get and I slow it down so it lasts  
I feel when I kneel to the power of my past

Don't take this to heart  
Don't take this to  
Heart

Cos I lost what I once loved in you  
I'm talking to myself cos you don't wanna  
So don't take this to heart

So don't take this to heart  
So don't take this to heart

Settle down  
I'm not around  
It's hard

Burning ground  
It's all around  
My heart
