Tropic Gold

I admit  
There's feelings that I can't quit  
Like I'm losing the will to live  
Please forgive the distance I have to give  
Another hits what we need  
Another hits what we need

I could stay the same  
Like a tidal wave  
I could stay for days  
Watch over me

Love's a drug  
A loaded gun  
Smother me just for fun

I gave you the best of me  
But you already had in your head  
It was over before the end

And the worst of me  
With no more apologies  
For addictions that I can't, please

I could stay the same  
Like a tidal wave  
I could stay for days  
Watch over me

Love's a drug  
A loaded gun  
Smother me just for fun  
Take another  
Overdose me please  
Happy faces  
Are haunting me  
Smother me just for fun

I could stay the same  
Like a tidal wave  
I could stay for days  
Watch over me

Love's a drug  
A loaded gun  
Smother me just for fun  
Take another  
Overdose me please  
Happy faces  
Are haunting me  
Smother me just for fun
