

Find Luv

Trouble

She say that "dick is mine"
She gone tell me where to get, 69
Soon as I'm thru off the top, get behind
She like tell them hoes they need to chill, get in line
You would think this hoe was crip
60 times, that you told me stick to them Blue scripts,
Get what's mine, pain got me out poppin seals, sippin lines
I know you tryna live don't forget to find luv

Get to find luv
Forget to find luv
What defines love?
Forget to find luv

If I'm out there in that field
You should be next to me
Trust my word, I fuck up I'm just burned
You don't een question me
The way you cook for me all on yo gram
They want yo recipe
You be like fuck my past
Them other hoes ain't last
You got the best of me

She like look, I'm tryna be goals
We ridin rolls
I can be yo wife and ho
Who drive the boat
She like look, I know hitting hoes
And I suppose, I ain't gone judge you
You ain't never see yo time coming
Time running, you been moving
Like a fake rollie, time funny
I found the bag, but still ain't find the love
Spent time hunting, all them other bitches duBs
And I wanted, everything to do wit you I want it
Never act brand new wit you, I wont an
Everything that's new for you, I'm on it
Always gon Be true to you, in my corner

She say that "dick is mine"
She gone tell me where to get, 69
Soon as I'm thru off the top, get behind
She like tell dem hoes they need to chill, get in line
You would think this hoe was crip
60 times, that you told me stick to them Blue scripts an
Get what's mine, pain got me out poppin seals, sippin lines
I know you tryna let em forget to find love

Get to find love
Get to find love
What defines love?
Forget to find love
