

Got Ugly

Trouble

This shit fucked around and got ugly
Bitch fucked around with my buddy
Partner locked up, bitch I'm thuggin'
I don't really even know who to trust in
Life a lil ho but they dirty
Realized that back when they loved me
Run up my motherfucking paper
Take care of the load, get back on your level

This shit fucked around and got ugly
Bitch fucked around with my buddy
Partner locked up, bitch I'm thuggin'
I don't really even know who to trust in

Realized that back when they loved me

Take care of the load, get back on your level

Whatever you do, got to love it
Dropped out, my first song was "Bussin'"
Saw a lil bitch I was loving
Just couldn't put up with me thugging
I gotta run up my banjo
Fuck this shit, I come from nothing
Be down with my set, it was nothing
Be down with my set, back to [?]
You looking for love, you's a dummy
These street'll be you be the food or go hunting
I'm hungry bitch, I want some money
I'm hungry bitch, you hear my tummy
You ain't got no job you's a Tommy

Ready for whoever coming

The same shit, swear to god, the same shit got you a life sentence
You're a rat and we know it

Your cheat card go straight through the toilet
That's what's wrong with these niggas these days
Staying cool and they know it
Going to prison don't make you no gangster
But that show that you're a real man
We took the silent consequences
That same way we would've took them bands
There's certain shit you ain't s'posed to do
There's certain shit s'posed to stay in the group
Will you have my back if it go bad
The same way a nigga had you?
