

## Hustle & Ambition

### Trouble

I don't respect nothing, except your hustle and ambition  
I came up with hustlers, who hustled chickens out the kitchen  
I came up with hustlers, who hustled chickens out the kitchen

I stay deeper than I ever did  
Draped in suit and tie like I'm the US president  
Bad bitches stay by my side, like Don Wan in the 70's  
Bankroll so big, I need a show like Ledderman  
Nigga, I payed my doos, you stupid fool, I'm not too cool for school  
I graduated all thanks to you  
What do I say to my lady friends, they callin all their homies, cool

I don't respect nothing, except your hustle and ambition  
I came up with hustlers, who hustled chickens out the kitchen  
I came up with hustlers, who hustled chickens out the kitchen

Get my mind right, money come before pleasure  
Think I'm your type, I'm not Cupid, just want to lay the pipe  
She wanna fuck, don't want her to spend the night  
You should wanna get up, and get your paper right  
Never mind layin up, that ain't something I favor  
It's the only thing runnin through my mind, so I gotta take care of mine  
I wake up seein dollar signs, so I won't even stay off my grind

I don't respect nothing, except your hustle and ambition  
I came up with hustlers, who hustled chickens out the kitchen  
I came up with hustlers, who hustled chickens out the kitchen

I came up with hustlers, who hustled them chickens  
Your girl on detention, my chopper session  
I'm fuckin with Trouble, who fuckin with Gucci  
Got shooters in town, and the Uzi I'm shootin  
And my life is a movie, soldiers salute  
No need for my goonies, just two pistols to shoot  
I like girls that are bitches, your bitch got potential  
My end of my mission, she on it, she lucky  
It's Gucci!

I don't respect nothing, except your hustle and ambition  
I came up with hustlers, who hustled chickens out the kitchen
