

## I Know

## Trouble

Now that your perspective has changed, now you doin' this shit  
The different heartbreaks, the different sacrifice, the different struggles  
Man explain this to me dawg, how you do this shit?

Head to the sky like I'm lookin' for a bird  
Must have found one cause my life being full of shit there go a turd  
Drop right on my face, is this the place that I'm supposed to be in?  
What I'm asking God, I been holdin' my fam down but got nothin' but problems  
in my life  
People don't understand the differences between the wrongs and rights  
What's necessary, what's beneficial to get it right  
What consequences bullshit bring to you, won't catch me beefin' it up  
I'd rather eat it up than settle for a quick check  
Knowin' I'ma spend it so before I do that  
Stay independent is what I'ma do  
Niggas think they'll be rich if they just sign right quick  
To a label then be unstable once the money is spent (you in the red now)  
All the people who you was takin' pictures with don't give a shit no mo'  
All the ones you hit the road with done closed doors  
Now ya walkin' round with ya head down  
They just show love cause ya song was playin' in the club  
Yeah I know

When everything good see everybody you know  
When it all falls down then they all seem to go, yeah I know  
It's like a gun when you face it yeah I know, yeah I know  
Nowhere to run when that place yeah I know  
When everything good see everybody you know  
When it all falls down then they all seem to go, yeah I know  
What to dream for in life yeah I know, yeah I know  
What to dream for in life yeah I know

Forgot everybody become ya friend, when the ends end  
See how everybody act like you a ghost when the money goes  
You find out who really your people, who you can trust, who love ya, when yo  
u down and out bad  
They still stickin' round for the drag  
It seems, people do anything for a dollar  
They will, do anything to be noticed  
Ain't no controllin' it, the lust for fame won't change, it'll only worsen  
Females don't wanna have careers, only want purses  
And dudes don't wanna have careers, just wanna screw the women  
Have they name ringin' maybe a chain swingin', none of that equals any paper  
though  
Have you thought about when ya trend run out?  
Will you be stable for?  
The long run in a hard time that life forever been takin' us through  
Or did you think everything sweet and forever your people will eat  
Everyone that's different from you, I know what I dreamed for and I strive f  
or it  
I just thank God I'm alive for it

When everything good see everybody you know  
When it all falls down then they all seem to go, yeah I know  
It's like a gun when you face it I know, yeah I know  
Nowhere to run when that place yeah I know  
When everything good see everybody you know

When it all falls down then they all seem to go, yeah I know  
What to dream for in life yeah I know, yeah I know  
What to dream for in life yeah I know
