

## I Survived

### Trouble

I swear on Lord I feel like nobody even know me  
Got plenty dough, but I hurt too an I can't show it for real  
Drop the top I'm wishing problems would just blow away  
Project nigga from the bottom came a long way for real

For my dawgs who died on me  
I went in overdrive homie  
Niggas tried to slide on me  
(Blessed to be here)  
I survived on them  
Tried to put the 12 on the kid  
Shit went shell on the lick  
14 vowed never tell on a nigga  
Know they revoke the bail on a nigga

For you I went through hell homie  
Talking down on me you dead wrong  
I had yo back like every bone  
(I never fold I rode bout everythang)  
I wrote the truth in every song  
I'ma gone head out and head home  
Where the love so real feel it in every bone  
Don't mean to have you led on  
Forgive me if I led wrong

That's a Rollie, since you wrist watching  
Click swappin, while yo bitch probably  
Love me, Skoob he, keep it so G  
You say you love me, but you, ain't riding you leachin

I swear on Lord I feel like nobody even know me  
Got plenty dough, but I hurt too an I can't show it for real  
Drop the top I'm wishing problems would just blow away  
Project nigga from the bottom came a long way for real
