

## Rain

## Trouble

Remember, when we were standing in the rain  
like so many times before  
wishing we could see again  
what am I looking for  
never really could explain  
I caused you so much pain  
now I understand

Baby, rain must fall  
blue skies are clear in her eyes  
rain, she keeps fallin'  
don't be afraid, look for the sun

Confusion seems to be all around  
nothing is real  
sometimes, when I can't take anymore  
the way you always make me feel  
never really could explain  
I always loved the rain  
now I understand
