

She Need It

Trouble

She sittin at home, waitin on me to make a move
She sayin that it's been too long
She really want this
She callin my phone, tellin me to come on
Cause she wanna have me all alone
I know she need it, she need it
She need it, she need it

She need me, like I need breth
Something to say, love trill shit, by the weekend, now that's something to p
lay
She feelin herself, gettin her's on
Lovin the way I treat her, she ain't wrong
She can get it, like she said on the phone
But if I go, 9 times out of 10, I ain't leavin
Got the type of juice box to make you slide
Good as me, show one time
Inisent lose, but she's guilty
Clean lady, by 6, she's filthy
Roll with Bloods, but she love niggas
Dirty Sprite, for the light trips
That thug she fall in love with
Something bout the way she stunt with him
That's the reason I'm right here
She got a man, but he ain't like me, yeah
I'm known for giving that good drive
Type of dude, good guy

She sittin at home, waitin on me to make a move
She sayin that it's been too long
She really want this
She callin my phone, tellin me to come on
Cause she wanna have me all alone
I know she need it, she need it
She need it, she need it

Girl, you been feenin like an addict
Just come down, I'm about to let you have it
Soon as I get home, Imma get you in the zone
Imma make you moan and grone
Start to dress you down, Imma pull your panties to the ground
Imma flip that ass all around
And I know you ain't got nothin to proove
You know how I do, don't act like none of this is new
Imma pull up on you in a few, in a few

She sittin at home, waitin on me to make a move
She sayin that it's been too long
She really want this
She callin my phone, tellin me to come on
Cause she wanna have me all alone
I know she need it, she need it
She need it, she need it
