

We Made It

Trouble

I feel like it's an obligation
I said this ain't nothing they said we made it
I said this ain't nothing they said we made it big
I said this ain't nothing they said we made it
I said this ain't nothing they said we made it
I said this ain't nothing they said we made it big
I said this ain't nothing I'd be like this ain't shit
Seemed like everybody need a favor
Seemed like everybody asks for favors now

You get a little something he expecting Saint Nick
Holding nuts holding grudges
Can't believe this shit
You know my family tree pussy ain't never been mobbed
I feel the pussy nigga vibes when I step out the car
Everybody wants something nothing
If a nigga in my circle he ain't gonna want for nothing
Fuck what you heard on the well bitch is still mob
Same nigga same shit or fuck with y'all
Sure the fuck

I said this ain't nothing they said we made it
I said this ain't nothing they said we made it big
I said this ain't nothing they said we made it
I said this ain't nothing they said we made it
I said this ain't nothing they said we made it big
I said this ain't nothing I'd be like this ain't shit
Seemed like everybody need a favor
Seemed like everybody asks for favors now

How you say you feel when I ain't even with no one
Ain't with a woman still staying with a woman
How you saying you feel a thot and you right here with me
Every day you spent and get yourself for free
That you made it in the time you get a piece
Everybody waiting in line trying to get a piece
They all want you checking on them
Or checking on me
The best will let in in a while are the base enemies

I said this ain't nothing they said we made it
I said this ain't nothing they said we made it big
I said this ain't nothing they said we made it
I said this ain't nothing they said we made it
I said this ain't nothing they said we made it big
I said this ain't nothing I'd be like this ain't shit
Seemed like everybody need a favor
Seemed like everybody asks for favors now
