Troy Ave

On the road to life trying to see where I get  
In my rearview mirror leaving all bullshit  
Coming from nothing, on my way to be something  
Keep it real with the real, that's why the fakes say I'm frontin'  
I don't care if they hate me they did nothing to make me  
I'm riding Mercedes it's driving 'em crazy  
That came out in the picture excuses won't fix ya  
But all the ones that supporting just know that I'm with ya!  
You should know that I'm with ya!  
Just know that I'm with ya, just know that I'm with ya  
And if the role reversed I know you got me the same!

With the niggas that I would go for and kick in the door for  
I love my dogs like they touchdown or robo  
That's my son and problem got 'em covered like brothers  
Me and Lito closer than me and my father  
He was kind of around, I would drive out of town  
Me and Hovain selling cocaine from paper brown  
Bags of money out the bag it smell funny  
Rubber bands on rubber bands on mostly 20's  
Fish scale got me on another scale, oily  
Pace protect your faith and most your loyalty  
I done seen niggas pump up and pump fake  
Over flake I stayed true celebrate, we got cake!

On the road to life trying to see where I get  
In my rearview mirror leaving all bullshit  
Coming from nothing, on my way to be something  
Keep it real with the real, that's why the fakes say I'm frontin'  
I don't care if they hate me they did nothing to make me  
I'm riding Mercedes it's driving 'em crazy  
That came out in the picture excuses won't fix ya  
But all the ones that supporting just know that I'm with ya!  
You should know that I'm with ya!  
Just know that I'm with ya, just know that I'm with ya  
And if the role reversed I know you got me the same!

Two of my favorite girls, they give me a headache  
I just give 'em the world  
I'm talking about my mother and my baby mother  
The only girls that make me ever play a sucker  
Paid off my mama crib it's worth over a million  
I told her rent it out and leave she like nigga I'm chilling  
Bought my BM a rover just to control her wishes  
She got the nerve to complain I'm fucking too much bitches  
Listen you can stay and you can go  
When you ready to leave them doors  
She can leave them hoes for good  
You out the hood we understood we good  
We understood we out the hood I did us good, word!

On the road to life trying to see where I get

To the fans we go in together get it from selling grams rely on me if ever  
I'm a little abrasive but like the love that you show  
But I ain't used to people speaking to me I don't know  
Fuck it, still do it Im'a get used to it  
Im'a get you revealed by the ones you put on my music  
They gone come back like I thought you was liar  
But yo man Troy Ave you was right he got fire  
Download or purchase, YouTube or stream  
I just wanna say thank you and I really mean it  
They said I wouldn't be shit but a drug dealer from Brooklyn  
Now I be having sold out shows they had me mistaken!
