

## So Sad

Troy Ave

I really thought we could've work it out  
Even gave up the bitter bitter doubt  
But we can't stop playing around  
Didn't I still do what I do now  
Sometimes I wish that we can get it back  
Because everyone deserves a second chance  
But we can never go back like that  
It's a shame how good things can't come back  
Too bad, too bad  
It's so sad  
Too bad, look at all that we could've had  
Just too bad

Now how the fuck could I forget her  
Truthful when I met her  
She was gonna be Ms. Sevin  
But I wasn't gonna sweat her  
From waking up textin her  
For wakin up next to her  
Rollin over fucking having unprotected sex with her  
Thinking sitting down when I was still running wild  
Then she hit me with the news she about to have my child  
I fell back and I was wrong I ain't gonna front  
But days turned into weeks, then weeks turned into months  
Came to my senses tried to be more supportive  
Then she looked me in the eye and said that baby got aborted  
Now I'm trying to get her close to me  
And she trying to get over me  
And we don't even speak damn this ain't how it supposed to be

I really thought we could've work it out  
Even gave up the bitter bitter doubt  
But we can't stop playing around  
Didn't I still do what I do now  
Sometimes I wish that we can get it back  
Because everyone deserves a second chance  
But we can never go back like that  
It's a shame how good things can't come back  
Too bad, too bad  
It's so sad  
Too bad, look at all that we could've had  
Just too bad

Alright I cheated, I admit it I cheated  
But not with nobody that I really wanted to be with  
And you was doing your thing too that ain't a secret  
Girl when I gave you my heart you were supposed to keep it  
But instead you gave it back, now you got me like a maniac  
I got alot of women but I want my baby back  
See I still can't accept you're gone  
And when the world got cold girl you kept me warm  
Now I'm getting drunk missing you thinking about dissing you  
Pissed at the fact I no longer mean shit to you  
Not only a lover I lost a friend  
But if you took me back shit I'd probably do it again

I really thought we could've work it out

Even gave up the bitter bitter doubt  
But we can't stop playing around  
Didn't I still do what I do now  
Sometimes I wish that we can get it back  
Because everyone deserves a second chance  
But we can never go back like that  
It's a shame how good things can't come back  
Too bad, too bad  
It's so sad  
Too bad, look at all that we could've had  
Just too bad
