

God Is Good

Troy Cartwright

We don't talk too much about it
Ain't no other way around it
It's a long road up ahead for a friend of mine
They've got him going in next week
He's got a thing he's got to beat
If I said I wasn't scared, well I'd be lying

Ain't no way of knowing 'bout tomorrow
And it won't always go the way I wish it would
I know time's just something that we borrow
Lord knows I forget more than I should
God is good

I see it happen all the time
It's a picked up tab in a checkout line
It's a tank of gas from a guy I never met
It's birthday number 93
For the man whose name that they gave me
We don't know how many he's got left
So he treats everyday like it's a gift

Ain't no way of knowing 'bout tomorrow
And it won't always go the way I wish it would
I know time's just something that we borrow
Lord knows I forget more than I should
But God is good

I'm holding her in my arms tonight
Got living proof looking me in the eyes
God is good

Ain't no way of knowing 'bout tomorrow
And it won't always go the way I wish it would
I know time's just something that we borrow
Lord knows I forget more than I should
But God is good
God is good
