

# Wild One

Troy Cartwright

She didn't just rain, she poured  
Blew through those swingin doors  
Nah she wasn't just any storm  
She was a wild one

I was brand new from out of town  
She said you free, wanna sit on down?  
We burned the night down to the ground  
It was a wild one

I should've seen it comin  
That smile's a smokin gun  
I should've took off runnin  
But some things you can't run from  
Ya tryin to hold onto her  
Was like tryin to catch the wind  
She blew right in messed me up  
But you get what you get  
When you mess with a wild one  
With a wild one

Yeah we were mustangs goin fast  
Burned too bright it couldn't last  
I never had another summer like that  
It was a wild one

It was about all I could take  
Watchin her just walk away  
Damn that heartbreak  
It was a wild one

I should've seen it comin  
That smile's a smokin gun  
I should've took off runnin  
But some things you can't run from  
Cause tryin to hold you baby  
It's like tryin to catch the wind  
You come right in mess me up  
But you get what you get  
When you mess with a wild one  
With a wild one  
She with a wild one

She got me high and made me crash  
What I did expect with a girl like that?

I should've seen it comin  
That smile's a smokin gun  
I should've took off runnin  
But some things you can't run from  
Cause tryin to hold you baby  
It's like tryin to catch the wind  
You come right in mess me up  
But you get what you get  
When you mess with a wild one  
With a wild one  
She with a wild one

A wild one
