

## Bad Behaviour

TroyBoi

Waiting, wishing, hoping  
Your patience got me going crazy  
You're there, I'm here, come near  
Distance got me going crazy  
Boy you kept me waiting  
You know what I'm waiting for  
All these hours we've been fuckin'  
But I need a little more  
I keep holding on to the question  
You're the one I kept it for  
Ooh, I let ya get me boy  
I let you get me

All that bad behavior  
All that bad behavior  
All that bad  
All that bad  
All that bad behavior

Whisper softly, tell me  
I need to know how much you want it  
Closer gently hold me  
Need to feel how much you want it  
Boy you kept me waiting  
You know what I'm waiting for  
All these hours we've been fuckin'  
But I need a little more  
I keep holding on to the question  
You're the one I kept it for  
Ooh, I let ya get me boy  
I let you get me

All that bad behavior  
All that bad behavior  
All that bad  
All that bad  
All that bad behavior

I know I made it hard for you to get my attention  
But now you got me, you got me

All that bad behavior  
All that bad behavior  
All that bad  
All that bad  
All that bad behavior
