I came in the club, I came through drip
Smokin' a blunt, just put out a clip
in the VIP with the dudes that I'm with
Now we got some chicks that we ain't come here with
Now we all roll it up roll it up
Blue dreams from the trees never get enough of the sticky stuff
Pour another cup fill it up just don't spill it up
Yeah we live it up

Got that ass in the air
Feel the vibes everywhere
Keep it groovey, keep it cool
Staying high, what we do
Got the juice, got the smoke, got the girls, what you want?
We gon' keep this party crunk from the back to the front

Pull up to the party I'm like "Hey! Wassup?"
I pulled out a bag of weed and roll it up
Man I'm really faded, can't believe we made it
And I'm standing everyone wanna drink
I can barely see it, but we OK
Then she feeling me, she gets roter trees - the remedy
Now my mind at ease I can get back to the function
Party system jumping, and I see my Mandy macking
She was never slacking but we always see through the packet
And that's how it go, from backstage to the show
Stacking up this money new city gotta go
Acein' all the tests like I'm made on a roll
And first she wasn't feeling me but now she wanna roll
That's how it go when you're young and on a ride
Looks hypnotize then your body feel alive
Nothing really matters only thing you can do
Is live by the code, play by your own rules

Got that ass in the air
Feel the vibes everywhere
Keep it groovey, keep it cool
Staying high, what we do
Got the juice, got the smoke, got the girls, what you want?
We gon' keep this party crunk from the back to the front

Got that ass in the air
Feel the vibes everywhere
Keep it groovey, keep it cool
Staying high, what we do
Got the juice, got the smoke, got the girls, what you want?

We gon' keep this party crunk from the back to the front

Got 'em jumping from the back

Got 'em jumping from the front

Got 'em jumping from the back

Got 'em jumping from the front

Skrrrt

Got 'em moving in the back all the way to the front

Got 'em moving in the back all the way to the front
