1. But don't you wanna see the world, boy  
All the countries and the stars, boy  
Just don't look them in the eyes, boy  
You just gotta take their lives, boy  
Let me take you for a drive, boy  
Oh I swear you'll feel alive, boy

All you gotta do is trust that I'm being true  
And do it for the people who love you

R: Let's go have fun, you and me in the old Jeep  
Ride around town with our rifles on the front seat  
Fun, you and me in the Middle East  
Shooting at rocks, bullets cocked in the midday  
Son, you and me in the old Jeep  
Ride around town with our rifles on the front seat  
Fun, you and me in the Middle East  
Shooting at rocks, bullets cocked in the midday

\*: Son, listen to what I tell you  
You'll see, my son  
Now you know what you gotta do  
Let's go have fun

2. When you're standing on the line, boy  
Don't go looking for goodbye, boy  
Yeah you gotta set them free, boy  
'Cause you know that's what they need, boy  
Yeah you're gonna make them proud, boy  
'Til they put you in the ground, boy  
  
All you gotta do is trust that I'm being true  
And do it for the people who love you

R: Let's go have fun...

\*: Son, listen to what I tell you  
You'll see, my son  
Now you know what you gotta do  
Let's go have fun  
Let's go have fun

R: Let's go have fun...

Fun, you and me in the old Jeep,  
Ride around town with our rifles on the front seat  
Fun, you and me in the Middle East  
Shooting at rocks, bullets cocked in the midday
