

Burn

True North

Shot in the dark
Just trying to find a spark
Gave you my heart
I sold all the rest for parts

Sick of hoping things can change
When they always stay the same

Close, but you're far
Yeah. This is gonna leave a mark

We're bending the truth
I don't know what to do

How do I say goodbye?
Can't suffocate this fire
I already burned you into my mind
I already burned you
Kills me to watch you go
Running off with my soul
How can I cut you out of my life?
I already burned you
Burned you into my mind, mind, mind
Burned you into my mind, mind, mind

Turn a blind eye
Drive past the warning signs
Back against the wall
Ready to risk it all

Do your feelings come and go?
Sometimes, I'm afraid to know

Close, but you're far
Yeah. This is gonna leave
This is gonna leave a mark

We're bending the truth
I don't know what to do

How do I say goodbye?
Can't suffocate this fire
I already burned you into my mind
I already burned you
Kills me to watch you go
Running off with my soul
How can I cut you out of my life?
I already burned you
Burned you into my mind

I'm not ready, ready, ready to let you go
I'm not ready, ready, ready to let you go

I don't know what to do

How do I say goodbye?
Can't suffocate this fire

I already burned you into my mind
I already burned you
Kills me to watch you go
Running off with my soul
How can I cut you out of my life?
I already burned you
Burned you into my mind
