

So cool and collected  
Each step is directed  
To be in the light  
Sing to you tonight  
I can tell I'm addicted  
To you and invested  
So turn off the lights  
Sing to you tonight

Stopping now to find  
It all comes in time  
This anthem is my soul  
My heart in every line

Take, Take, Take  
All the songs that I write  
All the pain in your life  
All your fears in the night  
And the drive to ignite  
And together we'll fight  
(Put the pieces together)  
(Let it all come together tonight)

A runaway with nothing left to say  
To a world without an escape  
(It's too late)  
But never lose your faith  
In the part of you that found Its way

Take, Take, Take  
All the songs that I write  
All the pain in your life  
All your fears in the night  
And the drive to ignite  
And together we'll fight  
(Put the pieces together)  
(Let it all come together tonight)
