

Somewhere New

True North

Love, like a drug
Never enough
Couldn't see it from above
'Til you were laying down below
Nothing you would ever show
But I kill myself because I didn't know
So I'll drive past the end of the road
Second chances come and go

I was in a cloud
Couldn't see a thing
Tried to build a house
But nothing fit in
Since you've been gone
I fixed all the problems
Found you alone
You left me to solve them

Broke down, couldn't shed a tear love
Drew blood, not enough to save us
Never knew 'til our time was through
Losing you found somewhere new

Cold, like a stone
The part of me that could never be alone
And I know in my soul
I can grow, I can finally build a home

'Cause there's more for me
Than staying in this place
Could ever offer me
I make the same mistakes
Nothing more for me
So I'll drive past the end of the road
Second chances come and go
(Second chances come and go)

Broke down, couldn't shed a tear love
Drew blood, not enough to save us
Never knew 'til our time was through
Losing you found somewhere new

Never knew 'til our time was through
Losing you found somewhere-

Love, like a drug
Never enough
Couldn't see it from above

Broke down, couldn't shed a tear love
Drew blood, not enough to save us
Never knew 'til our time was through
Losing you found somewhere new

Never knew 'til our time was through
Losing you found somewhere new

Never knew 'til our time was through
Losing you found somewhere new
