

Underneath The Lines

True North

Tonight's the night that we start our dance and
Collide for the very first time
I'll keep you on the outside for a while
And don't expect to stay long

And a full blown riot
Couldn't break this silence
I can't deny

When you touch my skin, you sink right in
I'm jaded so I show what love can be like when you lose hope
I've left behind somewhere underneath the lines

Somewhere underneath the lines
Somewhere underneath the lines

Maybe I just got a little bit older
Maybe the world got a little bit colder
We're playing dress up like the big kids now
But be careful what you wish for now

'Cause a full blown riot couldn't break this silence
I can't deny

When you touch my skin, you sink right in
I'm jaded so I show what love can be like when you lose hope
I've left behind somewhere underneath the lines
Somewhere underneath the lines
I'm jaded so I show what love can be like when you lose hope
I've left behind somewhere underneath the lines

'Cause a full blown riot couldn't break this silence

When you touch my skin, you sink right in
I'm jaded so I show what love can be like when you lose hope
I've left behind somewhere underneath the lines
Somewhere underneath the lines
Somewhere underneath the lines
Jaded so I show what love can be like when you lose hope
I've left behind somewhere underneath the lines
